Application Architecture

PULSE FRANKE

```
wget https://dl.technion.ac.il/docs/cis/public/ssl-vpn/ps-pulse-ubuntu-debian.deb
sudo apt-get install libcurl4 libnss3-tools
sudo dpkg -i ps-pulse-ubuntu-debian.deb
```

Server URL: <https://oneconnect-emea.franke.com/partners>

Gli User sono di Armando, Pirani e Strappini (quella di Strappini prenderela dal VMWARE)
La prima volta vuole l'SMS
